

Typical roof glazing system using Exitex, Capex & Ankorglaze

Available for: 6.4mm Laminate & 16mm, 20mm, 25mm, 28mm, 32mm Double Glazing Unit
Akg 28mm Condensation Control

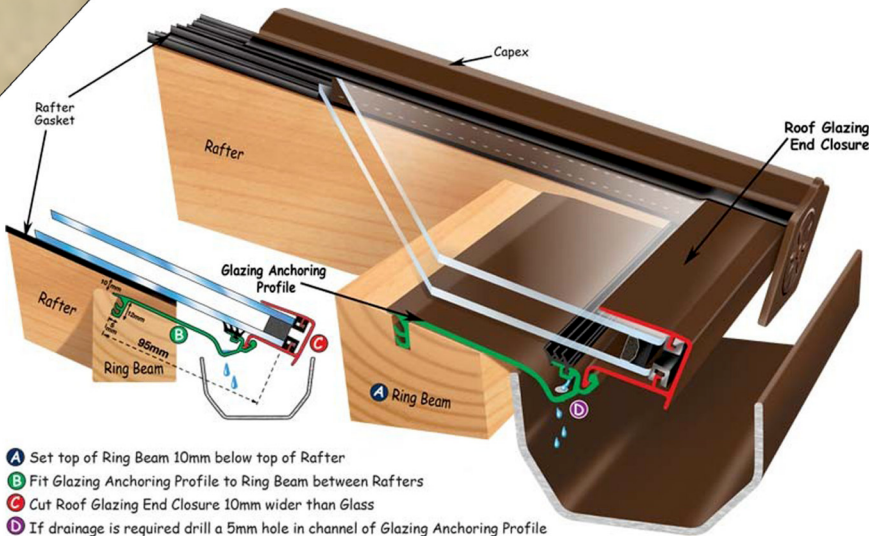

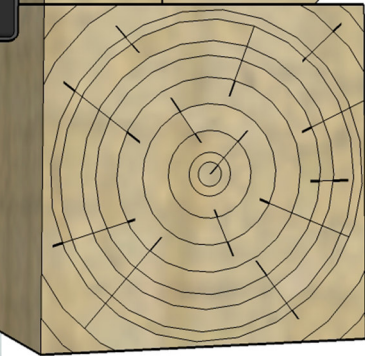

- Ankorglaze avoids the following problems with stepped units:
- (1) No fragile single glass edges
 - (2) No exposed spacer-bars to cause unit failure
 - (3) No non-reversible units
 - (4) No increased costs or supply delays
